

Name: _____ Class: _____ Date: _____

The Element Dating Game

As we play the game, please write down the selected matches below...

Atoms Included <i>List all the atoms in your molecule.</i>	Diagram <i>What would your molecule look like? Draw a picture of what your molecule would look like (including dot structures).</i>	Bonds <i>Ionic, covalent, or neither?</i>
1. Hydrogen 2. Hydrogen		Covalent

Atoms Included <i>List all the atoms in your molecule.</i>	Diagram <i>What would your molecule look like? Draw a picture of what your molecule would look like (including dot diagrams).</i>	Bonds <i>Ionic, covalent, or neither?</i>

Helpful Hints:

1. Circle your covalent bonds.
2. For ionic bonds, use different colors to represent which electrons started where. Make sure to include "+" and "-" for the losers and gainers.
